## VALVE EFFICIENCY

JTP brassware uses innovative, cutting edge valve technology to make sure your water reaches you at the optimum temperature every time.

### Vernet Efficiency

The CA43 cartridge will provide the best temperature regulation, whilst complying with all current safety standards and marques.

The cartridge is uniquely designed, with an optimised thermostatic element and advanced regulation components.

### Safety Assured

Every cartridge features an anti-scald function and this is tested on each cartridge.

### Multi Use

Vernet have developed a single geometry that can be used in many cartridges from baths, showers, thermostats and various flow capacities. The standard temperature range 15-60°C (59-140°F) but other temperature ranges can be accommodated for upon request.

### Longer Life

The advanced thermoplastic polymer inhibits the build-up of limescale, thus, extending the life of the cartridge.

### Pre-set Temperatures

Specific temperatures can be pre-set within the cartridge so no test rig is required in the valve.

### Isolating Valves

JTP concealed valves are installed with isolating point for ease of maintenance when changing cartridges. The water can be isolated from the valve itself to save time and money.

All our products go through rigorous quality assurance processes so we can assure they reach the quality standard that allow us to offer a 15 year guarantee.

## FLOW REGULATORS

JTP offers a range of affordable water saving devices and flow regulators to help you use water more economically.

Flow regulators control the flow of water by responding to signals generated by independent devices like flow meters or temperature gauges fitted inside showers and taps. They are manufactured using certified materials to avoid splash and maximize water and energy savings.

There are so many reasons we need to be mindful of our water usage – the huge demands placed on our water supplies have caused the government to launch legislation regulating the flow of water supplied by taps and showers in new homes.

Equally, we all want to be kinder to the environment by using water efficiently to contribute to a greener future. Conserving water is good news for both the planet and our pockets, as reducing water consumption helps us to save money on household bills.

All of our water saving devices and flow regulators conform to new legislation and come with Water Regulation Advisory Scheme approval to reassure you of their eco credentials.

LP 0.2	- 0.2	bar pressure	(very low pressure)
MP 0.5	- 0.5	bar pressure	(medium pressure)
HP 1	- 1	bar pressure	(high pressure)
HP 2	- 2	bar pressure	(high pressure)
HP 3-5	- 3	bar pressure	(high pressure)

Please refer to this pressure guidance on each of our products

All the below constant flow controls reduce dynamic pressure avoiding splash and maximise the water/energy saving and system balancing. They are produced from materials which have certification meeting the requirement of BS5490 "Materials for use with contact to potable water"

## 1 Definitions and Interpretation

1.1 Definitions: "Business Day" means a day (other than a Saturday, Sunday or public holiday) when banks in London are open for business; "Buyer" means the person or firm who purchases the Goods from the Company; "Company" means Just Taps Plus UK Limited (registered in England and Wales with company number 7462410). "Conditions" means the terms and conditions set out in this document; "Contract" means the contract between the Company and the Buyer for the sale and purchase of the Goods in accordance with these Conditions;

"Force Majeure Event" means an event or circumstance beyond a party's reasonable control; "Goods" means the goods (or any part of them) set out in the Order; "Order" means the Buyer's order for the Goods, as set out in the Buyer's written acceptance of the Company's quotation; "Specification" means any specification for the Goods which is provided by the Company;

1.2 Interpretation:

(a) a reference to a statute or statutory provision is a reference to such statute or provision as amended or re-enacted. A reference to a statute or statutory provision includes any subordinate legislation made under that statute or statutory provision, as amended or re-enacted.

(b) any phrase introduced by the terms including, include, in particular or any similar expression shall be construed as illustrative and shall not limit the sense of the words preceding those terms.

(c) a reference to writing or written includes [faxes and] emails.

## 2 Orders

2.1 These Conditions apply to the Contract to the exclusion of any other terms that the Buyer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing.

2.2 The Order constitutes an offer by the Buyer to purchase the Goods in accordance with these Conditions. The Buyer is responsible for ensuring that the terms of the Order and any applicable Specification are complete and accurate.

2.3 The Order shall only be deemed to be accepted when the Company issues a written acceptance of the Order, at which point the Contract shall come into existence.

2.4 Any samples, drawings or advertising produced by the Company and any illustrations contained in the Company's catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods referred to in them. They shall not form part of the Contract nor have any contractual force.

2.5 A quotation for the Goods given by the Company shall not constitute an offer. A quotation shall only be valid for a period of 20 Business Days from its date of issue.

2.6 Modifications to Orders communicated verbally and/or by the phone must be confirmed in writing by the Buyer and are subject to acceptance by the Company in accordance with Condition 2.3.

2.7 The Buyer cannot cancel an Order without the agreement of the Company; the Company reserves the right to apply appropriate charges. The minimum purchase order is £75.00 excluding VAT. Orders under this value will incur a carriage fee of £7.50.

## 3 Delivery

3.1 The Company shall endeavour to deliver the Goods (to the location set out in the Order or such other location as the parties may agree) by the date quoted for delivery in the Order, but such date is not guaranteed and the time of delivery is not of the essence. The date quoted shall be extended by a reasonable period if there is a delay caused a Force Majeure Event or the Buyer's failure to provide the Company with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods.

3.2 Any returns due to customers change of design will occur a restocking fee of 25% of the net value of the goods, furniture returns will also incur additional courier charges if applicable.

## 4 Packaging

4.1 All products are packaged by fully trained, professional warehousing staff and leave the premises in optimum condition for delivery. As such, Just Taps Plus declines all responsibility for damages arising from mishandling during transit.

## 5 Compatibility

5.1 The Goods are described in the Company's catalogue [as modified by any applicable Specification].

5.2 Whilst the majority of Just Taps Plus products are compatible with UK specifications, care should be taken on product selection prior to ordering to avoid problems arising from installation issues.

5.3 Just Taps Plus reserves the right to make technical changes to products at any time and modify or cancel models. Details and dimensions are approximate; therefore we advise no pre-drilling to fit products before delivery. Just Taps Plus will not be held liable for fitting issues that arise if drilling is attempted before the product is received.

## 6 Prices and Payment terms

6.1 The price of the Goods shall be the price set out in the Order, or, if no price is quoted, the price set out in the Company's published price list in force as at the date of delivery.

6.2 The price of the Goods:

(a) excludes amounts in respect of value added tax ("VAT"), which the Buyer shall additionally be liable to pay to the Company at the prevailing rate, subject to the receipt of a valid VAT invoice; and

(b) excludes the costs and charges of packaging, insurance and transport of the Goods, which shall be invoiced to the Buyer.

6.3 The Company may invoice the Buyer for the Goods on or at any time after the completion of delivery.

6.4 The Buyer shall pay the price of the Goods no later than 30 days of the date of invoice relating to the Goods. All payments shall be made in full, without deduction in respect of any counter claim. The Company may at any time, without limiting any other rights or remedies it may have, set off any amount owing to it by the Buyer against any amount payable by the Company to the Buyer.

6.5 If the Buyer fails to comply strictly with the payment obligations set out in this Condition 6, the Company shall be entitled to terminate the Contract or suspend any further deliveries of Goods to the Buyer (whether or not such deliveries are to be made pursuant to the same order as the Goods in respect of which payment has not been

made). Interest will be payable on any overdue invoices at the rate of 5% over Barclays bank base rate per annum, until payment is received.

## 7 Risk and Title

7.1 The risk in the Goods shall pass to the Buyer on completion of delivery.

7.2 Title to the Goods shall not pass to the Buyer until the earlier of:

(a) the Company receives payment in full (in cash or cleared funds) for:

(i) the Goods, and

(ii) for any other Goods that the Company has supplied to the Buyer,

in which case title to the Goods shall pass at the time of payment; and

(b) the Buyer resells the Goods, in which case title to the Goods shall pass to the Buyer at the time specified in Condition 7.4.

7.3 Until title to the Goods has passed to the Buyer, the Buyer shall:

(a) store the Goods separately from all other goods held by the Buyer so that they remain readily identifiable as the Company's property;

(b) not remove, deface or obscure any identifying mark or packaging on or relating to the Goods;

(c) maintain the Goods in satisfactory condition and keep them insured against all risks for their full price from the date of delivery;

(d) notify the Company immediately if it becomes subject to any of the events listed in Condition 10.1; and

(e) give the Company such information relating to the Goods as the Company may require from time to time.

7.4 Subject to Condition 7.5, the Buyer may resell or use the Goods in the ordinary course of its business (but not otherwise) before the Company receives payment for the Goods. However, if the Buyer resells the Goods before that time:

(a) it does so as principal and not as the Company's agent; and

(b) title to the Goods shall pass from the Company to the Buyer immediately before the time at which resale by the Buyer occurs.

7.5 If before title to the Goods passes to the Buyer the Buyer becomes subject to any of the events listed in Condition 10.1, then, without limiting any other right or remedy the Company may have:

(a) the Buyer's right to resell the Goods or use them in the ordinary course of its business ceases immediately; and

(b) the Company may at any time:

(i) require the Buyer to deliver up all Goods in its possession that have not been resold, or irrevocably incorporated into another product; and

(ii) if the Buyer fails to do so promptly, enter any premises of the Buyer or of any third party where the Goods are stored in order to recover them.

## 8 Warranty

8.1 The Company warrants that, subject to the other provisions of these terms, upon delivery:

(a) the Goods will be free from material defects in design, material and workmanship; and
